

SENATE JUDICIARY

EXHIBIT NO. 6

DATE 2/20/09

BILL NO. SB 406

Marilyn Hatch^{P.1}

SB 406 - Personhood -

Please
Support

Unfortunately, it hasn't been enough in some peoples minds that modern science has proved beyond a doubt that a new person, with unique physical traits and a unique personality exists from the moment of Conception.

Unfortunately, it also hasn't been the habit of government to take the Constitution literally and actually "Protect and defend" human life.

Years ago when I got into this battle, the mid 80's to be exact, we were told to never read or quote from the bible.

Well, that was our 1st mistake in my opinion. We should not have listened to those people.

Our nation was founded on

God's word. Our Laws came from the word of God. God's word holds all the answers to life's problems. Look around at all the death, disease and debt and tell me our world would not be a better place if we had followed God's word.

Our leaders will be held accountable to His Law whether they believe or not. We live in a world that is completely unplugged from common sense.

Please Don't toss this in the trash yet...

Psalm 139: 13+16

v.13 For you formed my inward parts;
you covered me in my mother's womb.

v.16 Your eyes saw my substance,
being yet unformed. And in Your Book
they all were written, the days
fashioned for me, when as yet
there were none of them. NKJV

After the union of a man and a woman produces a baby in the womb of the woman, God forms the inward parts of the microscopic substance. At this same time, God's life plan for that baby human being is written into His book. If there is no life at conception, what causes the unformed substance to develop into a fully formed substance? Without seed, we could not enjoy eating an ear of corn. Life must be in the very tiny unformed seed, or it could not have developed into a full ear of corn. Without life, nothing can grow to maturity. So we must conclude that life is in the unformed seed/substance. Modern translation: blob of tissue. God plans all future days of a newly conceived human being, writing

them in His book, even though he has not lived those days, as yet (vs. 16)
 If there is no life at conception, how can the life plan of a non-person be written into God's book? The moment a human being is conceived, God has planned all the days of his life on the earth, even though he has not as yet lived those days. At conception it is A DONE DEAL!

Some have interpreted the bible to say our names are written in His book when we accept Him as our Lord and Savior. Wrong interpretation. Doesn't say that anywhere in the Bible. Re-read Ps 139:13,16 then read Ex. 32:31-33 + Ps 69:27-28.

Our names are blotted out of His book when we don't accept Him

AS LORD. Well, if you are still reading this and haven't thrown it away yet - God BLESS You + God BLESS America although I Don't know how he still can
